

IWSG2022

2022 3rd International Workshop on Smart Grid

April 22-24, 2022

Chongqing, China

CALL FOR PAPER

Conference Proceedings

All submissions will be peer reviewed by 2-3 reviewers. Full papers accepted of IWSG 2022 will be published in Conference Proceedings, which is indexed by Ei Compendex, Scopus.

Submission Topics

- Successful applications of smart grid
- Integration of renewable energy sources to smart grid
- Production of energy using smart grid technologies
- Hybrid smart grid energy system technologies
- Novel energy conversion studies in smart grid systems
- Control techniques for smart grid energy systems
- Policies and Strategies for Smart Grid
- Microgrids for transportation electrification
- HVDC for Smart Grid
- Power Devices and Driving Circuits for Smart Grid
- Decision Support Systems for Smart Grid
- ICT, IoT, Real-time monitoring and control
- Applications for Industries
- Smart Grid for Electrical Vehicles and Components
- Optimized power delivery and generation
- Self-healing
- New Trends and Technologies for Smart Grid
- Energy Management Systems, etc.
